

REMARKS

Claims 2-7, 9-14, 16-21, and 23-29 are all the claims pending in the application. Claims 2-5, 9-12, 16-19, and 23-26 stand objected to only as being dependent upon a rejected base claim, and would be allowable if rewritten in independent form to include all the limitations of the base claim and any intervening claims. Claims 2, 9, 16, and 23 have been rewritten in independent form to place them in condition for immediate allowance and the non-allowed independent claims has been canceled. Further, the dependency of the remaining claims has been changed to place them in condition for allowance also.

II. Formal Matters and Conclusion

With respect to the objection to the drawings, Replacement Sheets making the arrow of item 14 longer and making it point to both items 11 and 12 are submitted herewith. The drawings have been corrected in Figure 1 to identify the DUT with item 40 instead of 14. The specification has been amended in paragraph 0019 to also show this correction. In view of the foregoing, the Examiner is respectfully requested to reconsider and withdraw the objections to the specification, claims and drawings.

In view of the foregoing, Applicants submit that claims 2-7, 9-14, 16-21, and 23-29, all the claims presently pending in the application, are patentably distinct from the prior art of record and are in condition for allowance. The Examiner is respectfully requested to pass the above application to issue at the earliest possible time.
